

CAREERS

Join the company with a new vision for Radiation Therapy

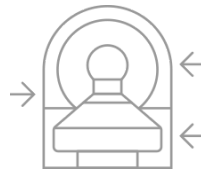

At ViewRay[®], our vision is clear – we’re dedicated to giving clinicians new and better ways to treat cancer with radiation therapy. We’re an entrepreneurial company with big ambitions and unlimited potential.

ViewRay is growing, and we’re always on the lookout for talented people who share our commitment and values. If you’re really good at what you do and ready for a new challenge, a career at ViewRay might be right for you. Here you’ll find:

Smart + Fun = Our team.

You’ll work with highly skilled people who enjoy what they do and take pride in their work. On this close-knit team, everyone’s contribution counts.

An innovative, exciting product.

With our flagship product treating clinically across the world, ViewRay is at an exciting point in our growth curve. We’re partnering with major medical centers, developing more product enhancements, and setting new standards for radiation therapy technology. And that’s just the beginning.

The potential to change lives.

ViewRay technology exists to give clinicians better tools and patients better treatments. Your work at ViewRay can make a difference in the quality of cancer patients’ lives.

ViewRay has a new vision for radiation therapy, and you can be part of it.

Open Positions at ViewRay

Job Title: Microwave Production Manager

Location: Mountain View, CA

Job Summary

We are looking for an experienced Microwave Production Manager who likes a fast-paced, ever-changing environment. ViewRay is growing at a fast pace. Reporting to the VP, Manufacturing, the Microwave Production Manager will oversee operation of Viewray's Linac production.

This is a great opportunity for a proven Manager who is looking for the more dynamic set of strategic and operational challenges.

To apply for this position, please log into our website at www.viewray.com.

Responsibilities

- Manage day-to-day operations including internal and outsourced operations for assembly and test of high power microwave devices including medical linear accelerators and related components
- Lead and direct activities of the production team of technicians and engineers, to ensure achievement of production and quality objectives
- Establish and maintain operational procedures including work instruction documents, process travellers, and procedures for inspection, assembly, test, pack/ship
- Implement continuous improvement processes to drive performance and yield to established objectives
- Help develop and implement long term manufacturing plans and strategies
- Select, qualify and help maintain suppliers for out-sourced processes
- Ensure compliance to internal Quality System requirements
- Ensure compliance to all applicable local, state, federal and national codes

Education, Experience, Skills

- BA/BS in engineering or relevant discipline, or equivalent experience; advanced degree preferred
- 8+ years experience in leading high-power microwave production operations
- Knowledgeable and established competency in operations and processes relating to microwave tube production, related components and associated subsystems
- Experienced in the use of benchmarking, metrics and continuous improvement methods (six sigma, lean, etc.) to drive improvements in cost, quality and delivery
- Proven experience building and leading teams of technicians and engineers – strong leadership and organizational skills
- Knowledge and experience working in a regulated environment, preferably medical/FDA

Personal Interactions

- Creative, flexible, and collaborative in approach to technical problem solving
- Ability to communicate effectively, both orally and in writing
- Ability to work effectively with physicists, scientists, and engineers in a fast-paced environment
- Unquestioned commitment to driving product quality and customer satisfaction
- Embodies a high level of integrity and commitment to excellence

ViewRay provides equal employment opportunities to all qualified applicants without regard to race, sex, sexual orientation, gender identity, national origin, color, age, religion, protected veteran or disability status or genetic information.
