

**JAS 2002**

The 2002 International US-CERN-Japan-Russia Accelerator School presents

**“Frontiers of Accelerator Technology in Linacs”**

held in Long Beach California, USA

November 6 - 14, 2002

- An excellent educational opportunity for graduate students, postdocs, research scientists and engineers in accelerator physics and technology.
- The program consists of 32 intensive lectures, 4 mini-courses, and 5 seminars on the physics and technology of various linacs.
- Limited financial support is available. Please submit a resume and two letters of reference with your application.
